FOR IMMEDIATE RELEASE

CHF SOLUTIONS AWARDED PREMIER INNOVATIONS AWARD

**Members of the Premier Healthcare Alliance Cite Aquapheresis™
Therapy's Impact on Patient Care**

BROOKLYN PARK, MINN. – June 16, 2009 – CHF Solutions announced today that their Aquapheresis therapy product, the Aquadex FlexFlow fluid removal system, has been awarded a 2009 Innovations Award by Premier Purchasing Partners, LP, one of the largest healthcare group purchasing organizations in the United States. It is being showcased as part of Premier's Annual Breakthroughs Conference and Exhibition in Anaheim CA.

Premier's Innovation Celebration highlights innovative solutions that bring a positive impact to healthcare delivery. The 26 products showcased were selected by a cross-functional team of Premier alliance members and staff of varying expertise, including clinical product planners, clinical field specialists, pharmacists, supply chain professionals, materials management and nurses.

"We are honored to be chosen by Premier for this award," said David Springer, President and Chief Executive Officer of CHF Solutions. "Premier's focus on improving outcomes and reducing costs coupled with Aquapheresis therapy's proven ability to reduce hospital length of stay and readmission rates offer not only a great opportunity for members of the Premier Healthcare Alliance, but also for the patients that they treat."

"The Innovation Celebration is a unique opportunity to unveil revolutionary concepts and developments in the healthcare industry," said Premier Purchasing Partners President Mike Alkire. "Similar to the Premier alliance, these suppliers are committed to innovation that leads to

improved quality and reduced costs, and we're happy to showcase their efforts to our alliance members."

CHF Solution's Aquapheresis therapy is a method to safely and effectively remove the excess salt and water in patients with fluid overload. Currently, Aquapheresis is available at more than 250 leading medical centers and outpatient clinics worldwide. To date, more than 20,000 patients have received this therapy.
